Health & Family Welfare >> Other	
----- We are writing to you to request your support for Lupus Trust India (a Public charitable Trust) that was established to raise awareness about lupus and aiding people who are struggling to make ends meet and are suffering from this long-term autoimmune condition. Lupus is a rare chronic autoimmune disease with a 9:1 ratio predominantly found in women between the age of 15 and 45 and also a life-threatening condition that can affect multiple organs which is not curable. Lupus is thought to affect over 1 million people in India. The Trust has been working to increase awareness about the disease and providing affordable treatment to those in need across India. Emotional, social, and psychological support is also given to patients struggling with this illness and its comorbidities.  The team at Lupus Trust India comprises young to middle aged patients who have been diagnosed with lupus and are in the fields of various professions. Each trustee has their own story of being diagnosed with lupus and coping with the daily battle of managing the disease and its complications As lupus patients who have undergone treatment with immunosuppressants & steroids. we understand the importance of cost-effective treatment and access to information about medication and lifestyle solutions. With your support, we believe we can make a significant difference in the lives of lupus patients in India. We respectfully request your good selves to intervene in the matter to get treatment for the rare disease at all public health centres/government hospitals and classify Lupus as a rare disease , also to protect under the Rights of Persons with Disabilities act and make available the benefits to those who suffer from it to all states and union territories We respectfully request your assistance in creating awareness about lupus and providing affordable treatment to those in need. We believe that with your we can make a positive difference in the lives of lupus patients in India .Thank you
